# GEORGE FLOOD

## FRONT-END DEVELOPER

## CAREER SUMMARY

Growth-focused frontend developer with over two years of experience in designing, developing, testing, and maintaining functional, appealing, and high-performance websites, web applications, and products. Committed to excellence, adept at writing clear, reliable, testable, and maintainable code. Highly organised with a keen eye for detail, adept at prioritising and allocating resources to meet all deliverables in dynamic environments. Exceptionally dedicated professional with impressive communication, interpersonal, and relationship-building skills, thrives in fast-paced, cross-functional settings.

## DEVELOPMENT EXPERIENCE

### FREELANCE WEB DEVELOPER

2022 – PRESENT

FIVERR & UPWORK

- Completing various projects independently, creating several websites, APIs, and web applications.
- Directing the end-to-end process, from initial design to development, testing, and deployment.
- Liaising with clients and researching user needs to establish website roadmaps and determine required functionalities.
- Designing tailored UI and UX features to maximise usability, make products intuitive and easy to navigate, and create seamless user journeys.
- Maintaining websites and products, troubleshooting and debugging complex technical issues, and re-designing web pages and products to increase performance and maximise functionality.
- Performing design and code reviews, identifying pain points, and creating enhancements.

## PROJECTS

- Sign-up form:** leveraged HTML & CSS to create a user-friendly and responsive registration form.
- SCSS webpage:** utilised SAAS partials and variables to build webpage, producing clean and less repetitive code.
- Photo Gallery app:** employed CSS grid to design the application and implemented jQuery plugin to filter through pictures.
- Javascript game:** created an immersive and functional game via HTML, CSS, and JS.
- Ajax directory:** designed API to display employees, creating search filters for users to search the repository.
- Dashboard:** built functional, appealing, and user-friendly dashboard with HTML and CSS, implementing charts and graphs from open-source JS library to improve navigation.

## PROFESSIONAL EXPERIENCE

### SECURITY GUARD

2019 – PRESENT

YOUNG'S

- Ensuring the provision of high-quality service delivery, reinforcing the utmost standards of security and safety for staff and customers alike.
- Partnering with management to develop and implement policies and procedures to augment security posture.

### MANAGER

2017 – 2019

COSTA COFFEE

- Initially joined as a Barista, attaining promotion to a leadership role within less than a year due to exceptional performance.
- Steered day-to-day store operations, driving revenue, operational efficiency, and customer satisfaction.
- Reinforced a client-centric organisational culture and provided ongoing guidance and support to the team, steadily boosting service levels.

### CINEMA HOST

2014 – 2016

ODEON

- Served and assisted customers in a dynamic environment, maintaining an unwavering commitment to exceeding expectations.
